HD QUALITY IMAGES

ZOOM IN & FULL SCREEN

HISTORY OF ALL YOUR VISITORS WITH IMAGE MEMORY

Find the history of all your visits with status (access authorized, missed call, ...) and the photo of your visitors. Very handy to know who rang home in the event of a missed call.

MULTI RELAYS CONTROLS

Open the door or vehicle gate. Speak handsfree or privately.

PREVIEWING

Discrete preview before answering. Shows visitor calling location.

Press REFUSE to cancel the call if you do not want to answer.

DO NOT DISTURB

Disable visitor calls so as not to be disturbed during the night, your meetings or during other activities. Plan ahead for times when the "DO NOT DISTURB" function will be activated. You will be informed after the fact, as calls from your visitors are stored in your call history.

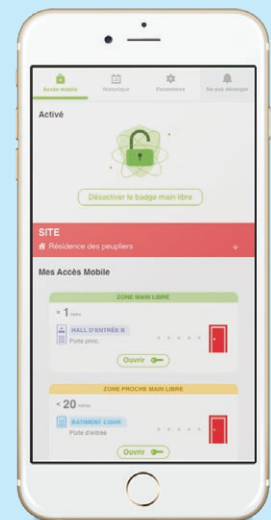

MOBILE ACCESS V2
HAND-FREE DIGITAL ACCESS (Coming soon...)

Switch to Hands Free and 100% digital access using your IPGUARD app. As you approach the access door and with your phone in your pocket, the door unlocks as if by magic...

The Free Hand is a new freedom of movement. Free yourself from the constraint of your fob and come and go in your lobby in an instant, even with your hands full.

- Great ease of use for residents
- Secure, traceable and unlimited provider access for managers
- Cost savings
- An ecological access solution

MODERN EFFICIENT INSTALLATIONS

HARDWIRED DOOR ENTRY	IPGUARD®
1000's of metres of cable	No cabling
Proprietary equipment in each flat	No proprietary equipment
All equipment and infrastructure degrades over time	No degradation, no eventual replacement cost
Costly maintenance and system has a finite lifespan	Remote cost-effective maintenance, no access to flat required
Labour intensive long installation	Straightforward and quick

TIME TO INSTALL

ANTI-CLONE PROTECTION

SMART AND MODERN FOR TODAY'S WORLD NO FIXED SYSTEM PROPRIETARY DEVICES

EQUALITY ACT
2010 COMPLIANT

RESIDENT USES DEVICES SELECTED BY THEM

- Not one size fits all with receiving device imposed on resident by manufacturer.
- Future proof, as communications / smartphone technology evolves so does IPGUARD®. (5G etc, better smartphones with more features)

PERFECT FOR THE ELDERLY AND PERSONS WITH DISABILITIES

- You answer on your own devices – the ones you chose to best suit your needs
- The call comes to you, not the other way around.
- You are safer. If you do not answer the call, it can route through to your carer or children.

CONTACTABLE EVEN WHEN NOT AT HOME

- Always in control, always contactable .
- Information on all visitors who called your flat available on your smartphone.

AUTOMATIC CALL TRANSFER, MULTI-SHARE

- Up to 3no mobiles per dwelling.
- If no answer, busy or declined, the call automatically routes forward.
- Simultaneous multi-share calling (coming soon).

DESIGNED TO MEET THE NEEDS OF ALL BUILDINGS, FROM COMMERCIAL TO RESIDENTIAL

FROM 1 TO 4 CALL BUTTONS WITH DIGITAL LABELS

Program up to 4 displays accessible in 1 click via direct call buttons.

The names are displayed directly on the 4G Mini Touch screen just above the corresponding call button.

DISPLAY UP TO 4 LOGOS ON YOUR 4G MINI TOUCH

Reinforce your image with the dynamic display of your logos at the entrance to the building.

ORGANIZE THE DISPLAY OF YOUR NAMES

Use the full potential of the screen

Thanks to the BUTTON auto-adjustment, the display area of each name adapts to the number of names to be displayed.

Thus, if you have only one name, it will be displayed over the entire length of the screen.

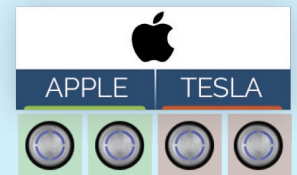

4G Mini Touch highlights every name

With the font auto-adjustment, the font size adjusts to the size of the location. The shorter the name, the bigger it will show on the screen.

Long names are no longer a problem

2 display modes are available to display long names from 10 to 20 characters:

- Dynamic name scrolling
- 2-line display

CONTROL THE DISPLAY OF YOUR NAMES IN REAL TIME ON BATICONNECT

Take control of the 4G Mini Touch screen in a few clicks
from BATICONNECT, your dedicated CLOUD platform

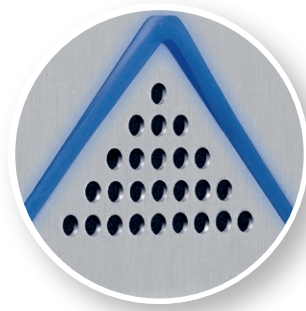

Previsualization

The preview mode allows the exact dynamic representation of the screen of 4G Mini Touch directly on BATICONNECT. A real advantage for managing your system remotely, without having to go to the site.

- Programming in just a few clicks
- Instant updates to on-site equipment
- No travel to site

ONE SMART TECHNOLOGY PANEL THAT DOES EVERYTHING
