

L&Q

& IPGUARD® 4G/IP/GSM VIDEO ENTRY

Delivering for L&Q and its residents

The challenge

L&Q requested a cost-effective upgrade of their existing hardwired system, with limited disruption to the residents, whilst retaining visitors' video calls.

The solution

IPGUARD® 4G/IP/GSM which negates the need for costly maintenance and resource requirements.

BATICONNECT CLOUD, our cloud-based management portal, puts the housing association in full control!

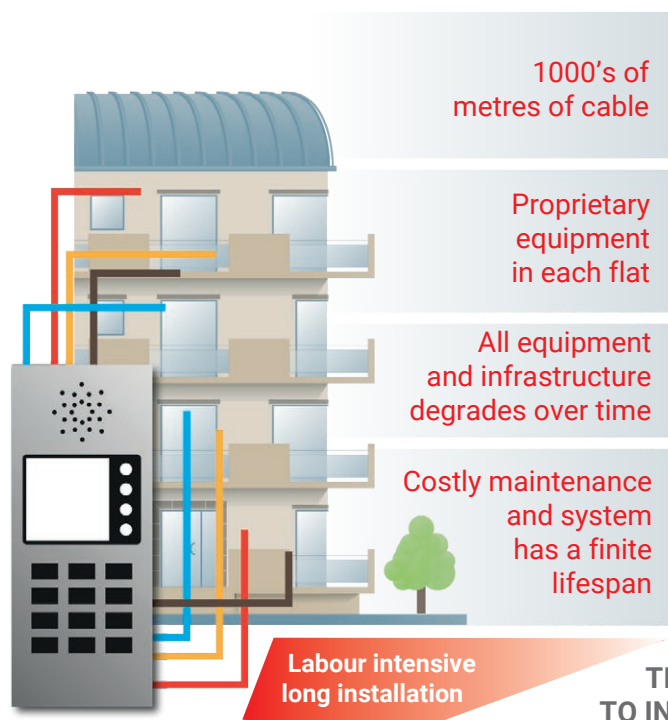

Additionally, our portal provides the ability to communicate with residents, by sending them text messages directly to their devices.

The result

The residents receive a flexible, future-proofed solution, and a significant upgrade in security – at a fraction of the cost.
