IPGUARD®

Secured by Design

SBD

Police Preferred Specification

The IPGUARD® 4G/IP/GSM CLOUD Door Entry & Access Control system provides a more cost effective, efficient and sustainable solution.

Cost effective

No need for monitors, cabling to flats and proprietary equipment to repair or replace!

Efficient

No access to flats are required and one-door installations are typically completed in less than three hours!

Sustainable

No new cabling and associated equipment. No more site interventions to program fobs, grant contractor access, communicate with residents, and much more!

Broadwater Farm Estate - Project Brief

The existing hardwired door entry system had failed. The system was comprised of 104 dwellings, 14 landing panels & 2 main entrance panels.

The existing PAC access control system was maintained on this project as it was only recently replaced. The IPGUARD provides another big advantage due to its dual functionality, door entry & access control managed on one CLOUD portal. The IPGUARD as standard comprises of an integral proximity reader and CLOUD connection. Meaning when the PAC fails, or the client feels necessary to upgrade the access control, the IPGUARD makes it easy, secure, and cost-effective.

HARDWIRED DOOR ENTRY	IPGUARD®
1000's of metres of cable	No cabling
Proprietary equipment in each flat	No proprietary equipment
All equipment and infrastructure degrades over time	No degradation, no eventual replacement cost
Costly maintenance and system has a finite lifespan	Remote cost-effective maintenance, no access to flat required

Labour intensive long installation

TIME TO INSTALL

Straightforward and quick

IPGUARD TOUCH

Each floor landing is secured with an IPGUARD TOUCH panel.

# SO SIMPLE AND CONVENIENT FOR RESIDENTS

The residents simply see and speak to their visitors on any of their own Smart devices, whether they be phones or tablets, iOS or Android. They are no longer tied to a single device at a fixed location. Why would anyone want it any other way?
HD QUALITY IMAGES

ZOOM IN & FULL SCREEN

CALL LOGS WITH IMAGES

Visitors received, missed calls, doors opened, access denied – all with time and date.
PREVIEWING

Discrete preview before answering. Shows visitor calling location.

MULTI RELAYS CONTROLS

Open the door or vehicle gate. Speak handsfree or privately.

How to use the
IPGUARD® APP?
