IPGUARD®

Secured by Design
SBD
Police Preferred Specification

SECURITY IS THE MOST IMPORTANT REQUIREMENT OF ANY ACCESS CONTROL SYSTEM

IPGUARD® PREVENTS THIS ▼

Residents expect a system where the proximity key fobs that give access into the building CANNOT be copied.

The IPGUARD® smart visitor and resident access control system GUARANTEES anti-clone protection for proximity keys (and radio transmitters for vehicle gates).

Each proximity key issued has a unique number and the IPGUARD® system will not allow duplicates. The residents are safe.

For a newly installed access control system to be FIT FOR PURPOSE it must guarantee to prevent access to the building using cloned proximity keys!

ANTI-CLONE
PROTECTION

KCP8000 Proximity Keyfob for residents

KCP8000 proximity keys are each engraved with a unique 10 digit ID number.

IPGUARD® WAS INSTALLED AND COMMISSIONED WITHIN A WEEK.

NO COMPLAINTS, NOT EVEN ONE.

IPGUARD
Smart App

The hardwired video entry system calling a video monitor in each flat had reached the end of its operational life and needed to be replaced.

L&Q had to choose between a hugely expensive installation with many months of disruption even if reusing existing cabling to fit new video monitors, or using latest Smart Visitor Door Entry IPGUARD® technology at a fraction of the cost and time.

This huge tower block with 233 flats is now using IPGUARD® Smart Visitor Door Entry.

- No cabling into each flat.
- No video monitor in each flat to maintain.
- No equipment in the risers to maintain.

EASY TO USE FOR VISITORS

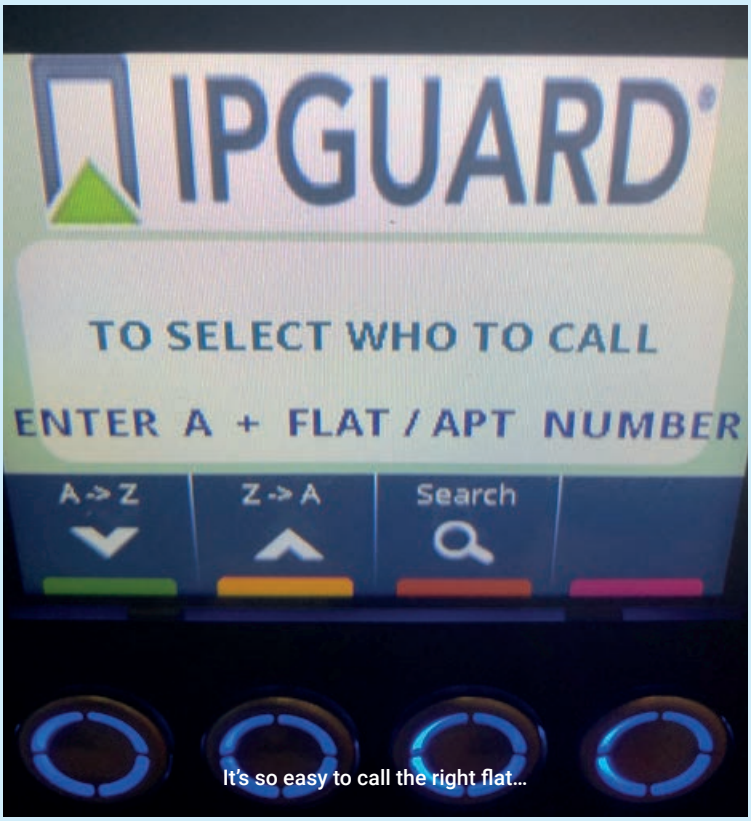
All visitor entrances and inner lobby entrance doors have IPGUARD® Smart Audio/Visual visitor panels calling residents, concierge, and remote management offices.

IPGUARD® is smart phone technology installed outside any door or gate enabling:

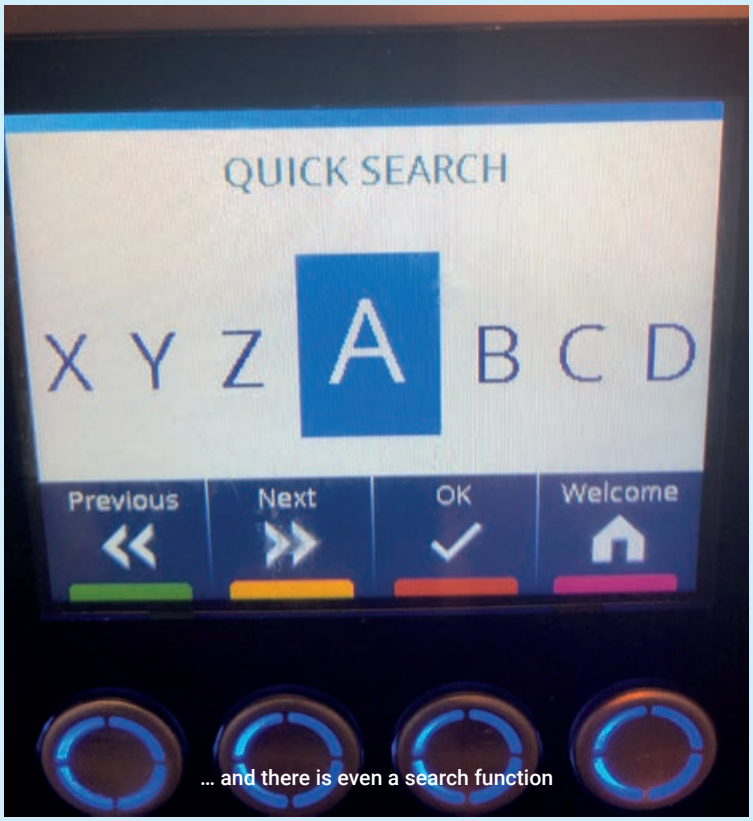
1. Visitors to video call whomever, there are no limitations.
2. Residents, On/Off site facilities staff to open doors, gates.

IPGUARD® Smart Visitor Door Entry includes resident access control integral to the panels, and on all secondary resident only doors and gates.

OR **OR**



It's so easy to call the right flat...



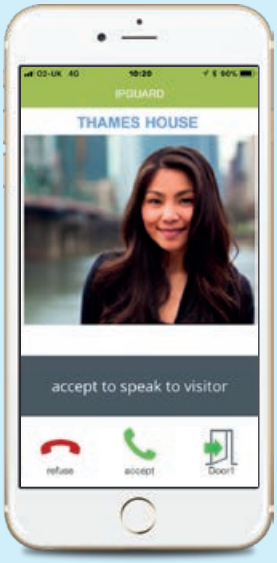
... and there is even a search function

IPGUARD
Smart App

Available from
Google Play and App Store

SO SIMPLE AND CONVENIENT FOR RESIDENTS

The residents simply see and speak to their visitors on any of their own smart devices, whether they be phones or tablets, iOS or Android. They are no longer tied to a single device at a fixed location. Why would anyone want it any other way?



HD QUALITY IMAGES

ZOOM IN & FULL SCREEN

CALL LOGS WITH IMAGES

Visitors received, missed calls, doors opened, access denied – all with time and date.

PREVIEWING

Discrete preview before answering. Shows visitor calling location.

MULTI RELAYS CONTROLS

Open the door or vehicle gate. Speak handsfree or privately.

SO SIMPLE TO ADMINISTER

WHY WOULD ANYONE WANT IT ANY OTHER WAY?

L&Q can program and monitor the proximity access control system 24/7/365. They can set unlimited, multi-user simultaneous, permission level settings simply by logging onto **www.baticonnect.com**

Management have total remote programming control and log feedback.

All usage and system events are recorded for security.

No software required
