# Delivering for L&Q and its residents

## The challenge

L&Q requested a cost-effective upgrade of their existing hardwired system, with limited disruption to the residents, whilst retaining visitors' video calls.

## The solution

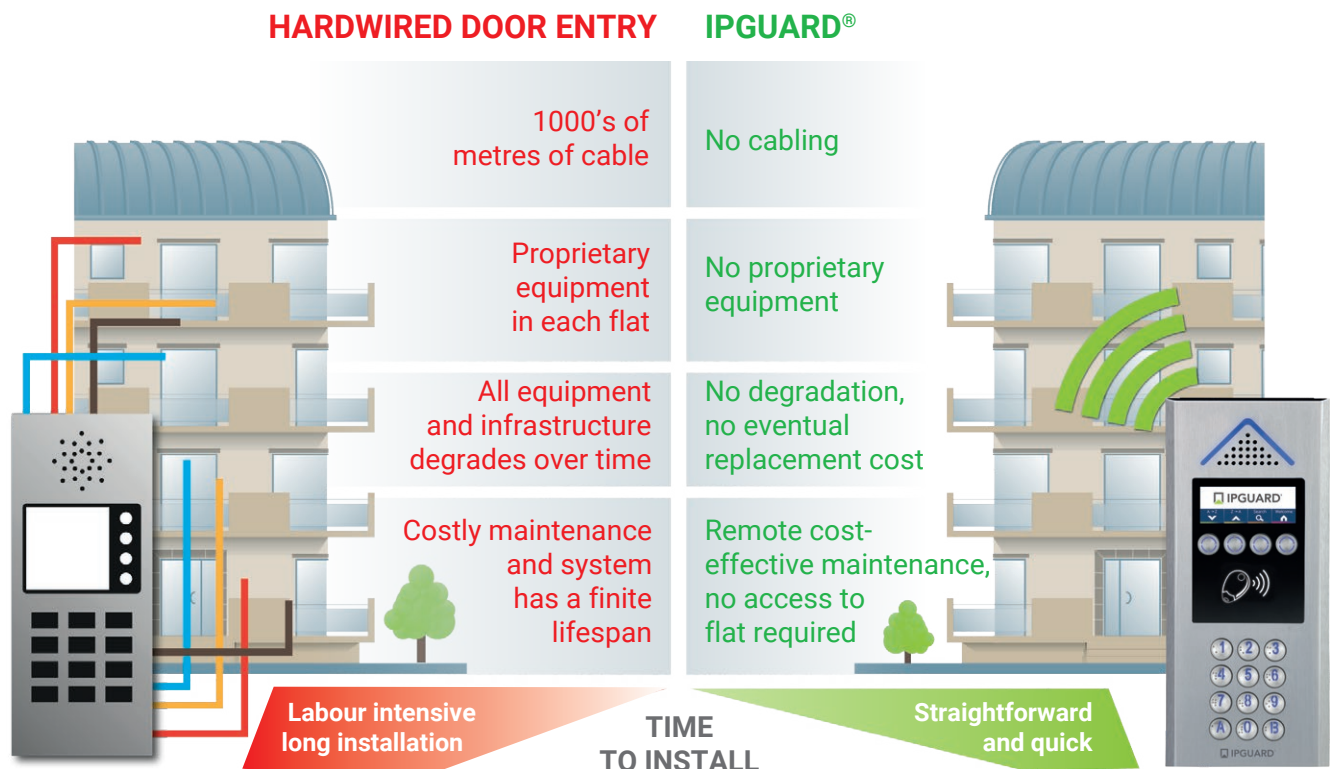

IPGUARD® 4G/IP/GSM which negates the need for costly maintenance and resource requirements.

BATICONNECT CLOUD, our cloud-based management portal, puts the housing association in full control!

Additionally, our portal provides the ability to communicate with residents, by sending them text messages directly to their devices.

## The result

The residents receive a flexible, future-proofed solution, and a significant upgrade in security – at a fraction of the cost.

## PROJECT HIGHLIGHTS
